PASS AmeriCorps (Promoting Achievement & Student Success)
Cultivating Leaders – Empowering Students – Transforming Futures

PASS AmeriCorps is a mentoring and leadership program that strives to ensure all youth are given the opportunity to reach their fullest potential and become positive leaders on their school campuses and in their community. PASS AmeriCorps mentors serve as positive caring adults and role models on campus, and are trained to provide individual and group mentoring, discussions, academic support, grades and attendance reviews, community service projects, and guest speakers. Students enrolled in PASS AmeriCorps receive meaningful one-on-one mentoring and academic support to help them realize their dreams through academic success, making healthy choices, and developing positive leadership skills. Mentors are available on campus Monday through Friday during school hours. Please visit www.sdcoe.net/pass-americorps or contact us for more information.

Please stop by room 901 to learn more about the program. The PASS AmeriCorps Service Member for the 2018-19 school year is Gabriella Reading Rocco. You can contact her at reading-rocco@vcpusd.org or at 760-751-4295 Ext. 701.
